

Did you know that?

The Bañado La Estrella, covering 400.000 hectares, is the second-largest wetland in Argentina. It is flooded for most of the year due to rainfall and the overflow of the Pilcomayo River. It is also part of the "Littoral Ecotourism Corridor" and "The Natural Route" program. In 2019, it was named one of the 7 Natural Wonders of Argentina, joining a select group of destinations recognized for their outstanding natural beauty.

How to get there?

PROVINCIAL ROUTE N°28

This is a paved route that crosses Bañado La Estrella from north to south via a 900-metre-long viaduct, considered one of the most important hydrological works in northern Argentina. It connects National Routes 81 and 86, linking the towns of Las Lomitas and Posta Cambio Zalazar.

Along this route, you'll find an elevated embankment area and a rest area with essential facilities, including a restaurant, restrooms, Wi-Fi, barbecue areas, a playground for children, and camping areas for families.

PROVINCIAL ROUTE 32

This is one of the most remote and distinctive areas of the wetland, offering a deep connection with nature. This route leads to the town of Fortín La Soledad, located about 70 km from Las Lomitas, a privileged spot to appreciate the vastness of the wetland.

The settlement developed as the wetland expanded. Today, around 80 families live there, raising cattle, pigs, goats, and sheep, and tending vegetable gardens. Visitors can enjoy boat or canoe excursions, birdwatching, and hiking.

Accommodation

CABAÑAS DOÑA ANA

RN 81 – Km 1474
Swimming pool, air conditioning, Wi-Fi, TV, barbecue areas.
+54 9 3705 415310
